Description of Federal Grant

The Refugee Health Promotion (RHP) funding streams are intended to support the health and wellbeing of ORR eligible populations living in Alaska. These services are bound by the refugee social services activities listed in CFR 45 Part 400. Specifics around the Health Promotion program can be found in [ORR PL 20-05](#) and [ORR PL 22-06](#). Funding is designated to support eligible individuals as delineated within [ORR PL 16-01](#), [ORR PL 22-01](#), and [ORR-PL 22-13](#).

Purpose and Scope

Refugee health and well-being is essential to being able to achieve self-sufficiency. The Alaska Refugee Health Programs statewide focus on increasing health education for arrivals. It is intended that the curriculum developed will be shared with sub-awardees providing in person delivery of services statewide. Therefore, it should be relevant across refugee populations and in Anchorage, Mat-Su and Delta Junction. Therefore, the curriculum developed must be user-friendly for future instructors. Applicants are encouraged to think about how they may work with current health promotion providers in those communities to assess health needs of ORR eligible populations, develop the scope of work, and ultimately develop a core curriculum of classes.

To accomplish these goals, applicants must provide services in accordance with 45 CFR Part 400 and are required to ensure the following in services:

1. Analyze data available from Apricot, the statewide refugee data system and hold focus groups with RHP service providers to assess the greatest needs of clients currently in services to inform the development of curriculum.
2. Develop at a minimum 20 stand alone health education classes with completed curriculum and required materials for use statewide by medical case managers.
3. Offer a “How to” training for all medical case managers statewide on how to teach the developed curriculum.
4. Collaboration with refugee health promotions sub-awardees statewide.
5. Complete bi-annual reporting.

The above-mentioned examples are not exhaustive.
